

LiberoLogic Web Accessibility LP Accessibility Conformance Report

WCAG Edition

(Based on VPAT® Version 2.5Rev)

Name of Product/Version: LiberoLogic Web Accessibility LP

Report Date: September 17, 2026

Product Description: This landing page introduces the accessibility assessment service provided by LiberoLogic Inc.

Contact Information: <https://www.liberoLogic.jp/contact/?type=accessibility>

Notes:

- This report is based on the results of the accessibility audit of the content as of January 21, 2026. Any changes made after this date are not reflected in this report.
- WCAG Level AAA is out of scope; therefore, the AAA success criteria tables have been omitted from this report.

Exceptions

The following content is excluded from the scope of this evaluation:

- External services (e.g., Google Maps, YouTube, social media widgets)
- Downloadable files such as PDFs
- User-generated content (e.g., comments and reviews)

Evaluation Scope

Representative pages: 1 page

- ウェブアクセシビリティ診断サービス (<https://www.liberogic.jp/lp/accessibility/>)

Evaluation Methods Used:

Automated testing

- Nu Html Checker: Validation of HTML syntax errors and conformance to WCAG specifications
- axe-core: Bulk extraction of programmatically detectable accessibility issues

Manual testing (verification through visual inspection and operation)

Following a verification checklist based on the WCAG success criteria, all applicable criteria are checked through visual inspection and keyboard operation. The following tools are used as needed during this process.

- Area Contrast Checker: Verification of contrast ratios for text and UI elements
- A11y Navigation Auditor: Verification of page structure such as landmarks and headings, and of dynamic changes to state-indicating attributes (e.g., aria-expanded)

Screen reader testing (verification through operation in screen reader environments)

- macOS: Safari + VoiceOver
- Windows: Google Chrome + NVDA

Applicable Standards/Guidelines

This report covers the degree of conformance for the following accessibility standard/guidelines:

Standard/Guideline	Included In Report
Web Content Accessibility Guidelines 2.0	Level A (Yes) Level AA (Yes) Level AAA (No)
Web Content Accessibility Guidelines 2.1	Level A (Yes) Level AA (Yes)

Standard/Guideline	Included In Report
	Level AAA (No)
Web Content Accessibility Guidelines 2.2	Level A (Yes) Level AA (Yes) Level AAA (No)

Terms

The terms used in the Conformance Level information are defined as follows:

- **Supports:** The functionality of the product has at least one method that meets the criterion without known defects or meets with equivalent facilitation.
- **Partially Supports:** Some functionality of the product does not meet the criterion.
- **Does Not Support:** The majority of product functionality does not meet the criterion.
- **Not Applicable:** The criterion is not relevant to the product.

WCAG 2.x Report

Note: When reporting on conformance with the WCAG 2.x Success Criteria, they are scoped for full pages, complete processes, and accessibility-supported ways of using technology as documented in the [WCAG 2.0 Conformance Requirements](#).

Table 1: Success Criteria, Level A

Notes:

Criteria	Conformance Level	Remarks and Explanations
<u>1.1.1 Non-text Content</u> (Level A)	Supports	Non-text content is provided with appropriate alternatives (such as alternative text, descriptions, or labels) based on its intended purpose.
<u>1.2.1 Audio-only and Video-only (Prerecorded)</u> (Level A)	Not Applicable	No prerecorded audio-only or prerecorded video-only content exists.
<u>1.2.2 Captions (Prerecorded)</u> (Level A)	Not Applicable	No prerecorded video content with audio information exists.
<u>1.2.3 Audio Description or Media Alternative (Prerecorded)</u> (Level A)	Not Applicable	No prerecorded video content with visual information exists.
<u>1.3.1 Info and Relationships</u> (Level A)	Supports	Information structures such as headings, lists, and tables are conveyed through proper markup and can be correctly interpreted by assistive technologies.
<u>1.3.2 Meaningful Sequence</u> (Level A)	Supports	Content is presented in a meaningful sequence.
<u>1.3.3 Sensory Characteristics</u> (Level A)	Supports	Information is not conveyed by sensory characteristics alone.
<u>1.4.1 Use of Color</u> (Level A)	Supports	Information and instructions are not conveyed by color alone.
<u>1.4.2 Audio Control</u> (Level A)	Not Applicable	No audio that plays automatically for more than 3 seconds exists.
<u>2.1.1 Keyboard</u> (Level A)	Supports	All functionality is operable through a keyboard.
<u>2.1.2 No Keyboard Trap</u> (Level A)	Supports	Keyboard focus is not trapped in any component.
<u>2.1.4 Character Key Shortcuts</u> (Level A 2.1 and 2.2)	Not Applicable	No keyboard shortcuts using only character keys (without modifier keys) are implemented.
<u>2.2.1 Timing Adjustable</u> (Level A)	Not Applicable	No content with time limits subject to this criterion exists.

Criteria	Conformance Level	Remarks and Explanations
2.2.2 Pause, Stop, Hide (Level A)	Not Applicable	No automatically playing content that lasts longer than five seconds exists.
2.3.1 Three Flashes or Below Threshold (Level A)	Supports	All content meets flash safety standards (no more than 3 flashes per second and within general flash and red flash thresholds).
2.4.1 Bypass Blocks (Level A)	Supports	A mechanism is available to skip repeated blocks of content.
2.4.2 Page Titled (Level A)	Supports	Each page has a descriptive and appropriate title.
2.4.3 Focus Order (Level A)	Supports	Keyboard focus moves in a logical and meaningful order.
2.4.4 Link Purpose (In Context) (Level A)	Supports	The purpose of each link can be determined from the link text alone, or from the surrounding context or programmatically provided information.
2.5.1 Pointer Gestures (Level A 2.1 and 2.2)	Not Applicable	No functionality that can be operated with multipoint or path-based gestures exists.
2.5.2 Pointer Cancellation (Level A 2.1 and 2.2)	Supports	Pointer operations can be cancelled before completion.
2.5.3 Label in Name (Level A 2.1 and 2.2)	Supports	Visual labels of UI components are included in their accessible names.
2.5.4 Motion Actuation (Level A 2.1 and 2.2)	Not Applicable	No functionality that can be operated by device motion or user gestures exists.
3.1.1 Language of Page (Level A)	Supports	The default human language of each page is properly identified.
3.2.1 On Focus (Level A)	Supports	No unexpected context changes occur when components receive focus.
3.2.2 On Input (Level A)	Not Applicable	No user input elements exist.
3.2.6 Consistent Help (Level A 2.2 only)	Not Applicable	This content consists of a single web page, and there is no help mechanism repeated across multiple pages; therefore, this success criterion does not apply.
3.3.1 Error Identification (Level A)	Not Applicable	No content where input errors are automatically detected exists.
3.3.2 Labels or Instructions (Level A)	Not Applicable	No content requiring input exists.

Criteria	Conformance Level	Remarks and Explanations
3.3.7 Redundant Entry (Level A 2.2 only)	Not Applicable	No situations requiring users to re-enter previously entered information exist.
4.1.1 Parsing (Level A) WCAG 2.0 and 2.1 – Always answer ‘Supports’ WCAG 2.2 (obsolete and removed) - Does not apply	Supports	For WCAG 2.0 and 2.1, the September 2023 errata update indicates this criterion is always supported. See the WCAG 2.0 Editorial Errata and the WCAG 2.1 Editorial Errata .
4.1.2 Name, Role, Value (Level A)	Supports	All UI components have appropriate name, role, and value information for assistive technologies.

Table 2: Success Criteria, Level AA

Notes:

Criteria	Conformance Level	Remarks and Explanations
1.2.4 Captions (Live) (Level AA)	Not Applicable	No live audio content exists.
1.2.5 Audio Description (Prerecorded) (Level AA)	Not Applicable	No prerecorded video content requiring audio description exists.
1.3.4 Orientation (Level AA 2.1 and 2.2)	Supports	Content is not restricted to a specific display orientation.
1.3.5 Identify Input Purpose (Level AA 2.1 and 2.2)	Not Applicable	No input fields that collect information about the user exist.
1.4.3 Contrast (Minimum) (Level AA)	Supports	Text and background colors meet minimum contrast ratio requirements (4.5:1 for normal text, 3:1 for large text).
1.4.4 Resize text (Level AA)	Supports	Text can be resized up to 200% without loss of functionality or information.
1.4.5 Images of Text (Level AA)	Supports	Text is used instead of images of text, with the exception of cases where images of text are essential, such as logos or graphs.

Criteria	Conformance Level	Remarks and Explanations
1.4.10 Reflow (Level AA 2.1 and 2.2)	Supports	Content is designed to be presented without horizontal scrolling at a width of 320 CSS pixels, OR without vertical scrolling at a height of 256 CSS pixels.
1.4.11 Non-text Contrast (Level AA 2.1 and 2.2)	Supports	UI components and graphical objects have sufficient contrast.
1.4.12 Text Spacing (Level AA 2.1 and 2.2)	Supports	Content and functionality are preserved when text spacing is modified by users.
1.4.13 Content on Hover or Focus (Level AA 2.1 and 2.2)	Not Applicable	No content that appears on hover or focus exists.
2.4.5 Multiple Ways (Level AA)	Not Applicable	This content consists of a single web page and does not constitute a "set of web pages" as defined by WCAG; therefore, this criterion is not applicable.
2.4.6 Headings and Labels (Level AA)	Supports	Headings or labels describe their topic or purpose.
2.4.7 Focus Visible (Level AA)	Supports	Keyboard focus is clearly visible to users.
2.4.11 Focus Not Obscured (Minimum) (Level AA 2.2 only)	Supports	Focused elements are not completely hidden by other content.
2.5.7 Dragging Movements (Level AA 2.2 only)	Not Applicable	No functionality that requires dragging movements exists.
2.5.8 Target Size (Minimum) (Level AA 2.2 only)	Supports	Pointer targets are at least 24 by 24 CSS pixels in size (except for inline targets, user agent controls, where essential, or when no other target exists within a 44 by 44 CSS pixel area).
3.1.2 Language of Parts (Level AA)	Supports	Language changes within content are properly identified.
3.2.3 Consistent Navigation (Level AA)	Not Applicable	Not applicable. This content consists of a single web page, and no navigational mechanisms are repeated across multiple pages; therefore this success criterion does not apply.
3.2.4 Consistent Identification (Level AA)	Supports	Components with the same functionality are identified consistently.

Criteria	Conformance Level	Remarks and Explanations
<u>3.3.3 Error Suggestion</u> (Level AA)	Not Applicable	No content where input errors are automatically detected exists.
<u>3.3.4 Error Prevention (Legal, Financial, Data)</u> (Level AA)	Not Applicable	No legal or financial transactions, user data modification/deletion, or test response submissions occur.
<u>3.3.8 Accessible Authentication (Minimum)</u> (Level AA 2.2 only)	Not Applicable	No authentication process exists.
<u>4.1.3 Status Messages</u> (Level AA 2.1 and 2.2)	Not Applicable	No status messages exist.
